### THE CHALLENGE:

OPTIMISE WEBSITE FOR SEARCH BY BUILDING A GREAT USER EXPERIENCE AND ALSO OPTIMIZING TECHNICALLY FOR SEARCH ENGINES.

To drive targeted traffic to website and thus increase transactions/ leads.

### EFFORTS:

Seo Audit was conducted to check where the website lacked from SEO perspective. After analysing the results below short comings were listed.

### FINDINGS:

- ☐ The Meta tags were missing
- ☐ The Url of the pages were unstructured
- ☐ Alt tags in images and Logo were missing
- ☐ Google Webmaster account was not set
- ☐ Breadcrumbs was not in hierarchy
- ☐ Site was not added in Google, Bing and other search engine listings
- ☐ Social buttons were missing
- ☐ Site was not mobile responsive

### SOLUTION:

Being an important aspect of SEO, the Meta tags were created by using the most targeted keywords

- Proper structured SEO friendly url's were made to rank up the pages in SERP
- ☐ The Images and logo was optimized by ensuring proper Alt tags were used.
- ☐ Google Web master account was set to avail its advanced features and to keep a check on the details
- ☐ Proper Breadcrumbs were made as they are high up in the code and help the search engine crawl the site.
- ☐ The website was registered with Google, Bing and various other place listings.
- Social Media plays a vital role in build a brand. We made it a point that the website doesn't losses out on this hence we created social buttons for the website.
- ☐ The website was not mobile friendly hence a website compatible on mobile was built.

### RESULTS:

Compared to the Q3-2015, in Q4-2015 IFSS got 69% total increase in organic search traffic.
